EPILEPSY WARNING
PLEASE READ BEFORE USING THIS VIDEO GAME SYSTEM OR ALLOWING YOUR CHILDREN TO USE IT.

Some people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns in everyday life. Such people may have a seizure while watching certain television images or playing certain video games. This may happen even if the person has no medical history of epilepsy or has never had any epileptic seizures.

If you or anyone in your family has ever had symptoms related to epilepsy (seizures or loss of consciousness) when exposed to flashing lights, consult your doctor prior to playing.

We advise that parents should monitor the use of video games by their children. If you or your child experience any of the following symptoms: dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, while playing a video game, IMMEDIATELY discontinue use and consult your doctor.

Precautions to take during use:
- Do not stand too close to the screen. Sit a good distance away from the television screen, as far away as the length of the cable allows.
- Preferably play the game on a small television screen.
- Avoid playing if you are tired or have not had much sleep.
- Make sure that the room in which you are playing is well lit.
- Rest for at least 10 to 15 minutes per hour while playing a video game.

'Twas the days before Christmas and while Santa slept in his house, An evil plot was brewing, created by Louse the Mouse.

A motley crew of creatures took part in the twisted plan, including Mr. Weather, The Mouse and the Evil Snowman.

All across the wide world his elves were hard-working, Operating special machines made just for toy-making.

When the cold Evil Snowman scared all the elves away, The TimeKeeper stole parts from machines that same day.

But for the vicious Mouse this wasn't enough. 
"I'll show them, I'm gonna play rough!"

He stole the kids' presents, and cursed them with a spell. 
That's when Santa woke up, sensing all was not well.

All the elves are gone and Christmas draws near 
But there's much worse than that to fear!

Give Santa the potion to drink and he'll change 
He'll become "Anti-Claus" on a rampage of rage!

He'll break the toys, he'll ignore his good work, 
Could it be Santa is just a fat jerk?

You must help Santa find his way, 
Fix all the toys, and take off in his sleigh.

Through 24 levels you'll put up a fight 
Can you help save Christmas? Let's find out tonight!
Insert the Daze Before Christmas game cartridge, then turn the system ON. At the title screen press left or right to select one-, two-players or Options.

In the Options screen you can turn music on or off, test music and sound effects, set the difficulty level, enter passwords or change the control pad configuration.

Will the children of the world be disappointed on Christmas morning? Not if Santa can help it. He has 4 lives and unlimited continues to find all the presents and deliver them to homes everywhere. To find the presents, Santa must defeat enemies and possessed toys. He can do this by throwing magic dust and stomping on them. Once defeated, the enemy or toy will turn into a present wrapped in blue paper. There are other presents that Santa will find that are wrapped in red and gold. Some of these presents contain goodies for Santa like 1-ups, bells that act as checkpoints and hats for his health meter. They might contain a missing elf but be careful! There also may be a bomb or a bad guy waiting to be released.

You may think that someone as kind as Santa should have no problem in saving the day. You’ll soon find out that the good-natured man is sometimes on the naughty list. When Santa takes the steaming cup of tea, he becomes Anti-Claus. Instead of throwing dust to defeat enemies, he swings his bag at them, smashing them and any presents in his reach. Don’t worry, the tea will wear off and he can continue collecting presents.

Bells act as checkpoints for Santa to return to when he loses a life. Giant gold stars indicate the end of the level. Bonus points are given for all the good presents Santa has collected. At the end of each section, Santa’s bag becomes so heavy that he must deliver some of the presents to lighten the load. He hops in the sleigh and orders the reindeer to take to the air. In the flying levels, you must manoeuvre the sleigh and drop presents down chimneys while avoiding structures.

Will Christmas morning be a happy day or one greeted with shock and dismay? It’s all up to you!
